

# ALEX MORGAN

## Staff Software Engineer — Platform Infrastructure

San Francisco, CA · +1 415-555-0123 · alex.morgan@example.com · linkedin.com/in/alexmorgan-eng · <https://alexmorgan.dev>

Software engineer with 10+ years building distributed systems, platform infrastructure, and data pipelines at scale. Proven track record owning Kubernetes clusters and AWS infrastructure, driving 40% cloud cost reduction, defining SLOs/SLIs, and leading cross-functional teams of up to 10 engineers. Deep expertise in Go, gRPC, and microservices reliability.

### PROFESSIONAL EXPERIENCE

#### Luminary Cloud | Staff Software Engineer 2021–Present

- Architected microservices platform handling 80K req/s with 99.95% uptime, serving 2M+ active users globally.
- Reduced infrastructure spend by 40% (\$2M/year) by migrating 60+ services from bare-metal to Kubernetes on AWS EKS, leveraging spot instances and autoscaling.
- Defined and owned SLOs for 12 critical services; introduced SLI dashboards in Grafana, reducing MTTR by 35%.
- Led a 10-person platform team through a 9-month consolidation of 4 legacy CI/CD systems into a unified GitOps pipeline, cutting deploy times from 45 min to under 8 min.
- Mentored 6 junior engineers; 4 were promoted within 18 months.

#### Apex Analytics | Senior Software Engineer 2018–2021

- Built a real-time event streaming pipeline using Apache Kafka + Flink processing 500M events/day, improving end-to-end latency by 3× (900 ms → 300 ms).
- Designed a multi-tenant data warehouse on Snowflake for 120 enterprise customers, enabling self-serve analytics and reducing data team request backlog by 70%.
- Owned and iterated on public REST and GraphQL APIs consumed by 45 external partners.

#### Qubit Systems | Software Engineer 2015–2018

- Developed backend services in Go for a B2B SaaS platform with 10,000 paying customers.
- Improved database query performance by 4× via schema redesign and query optimisation across a 200 GB PostgreSQL cluster.
- Contributed to distributed systems open-source projects: merged 12 PRs into etcd and 5 into gRPC-Go.

### EDUCATION

#### University of Texas at Austin | B.S. Computer Science 2015

GPA 3.8/4.0 | Honors Thesis: "Consistent Hashing in Distributed Key-Value Stores"

### SKILLS & LANGUAGES

**Professional:** Go · Python · Kubernetes · AWS · gRPC · Terraform · Prometheus · Grafana · Kafka · Flink · PostgreSQL · Docker · GraphQL · Redis · TypeScript · Snowflake

**Strengths:** Technical leadership · Cross-functional collaboration · Mentoring · Incident response · Stakeholder management

**Languages:** English (Native), Spanish (Professional Working).
